# DIECAST 5000

METcase™

Universal diecast aluminum enclosures

- Versatile diecast boxes for electronics equipment
- Highly durable and shock resistant design
- RFI/EMI shielding properties
- Aluminum alloy ENAC 44200
- Lid fitted with M3 machine screws
- Temperature resistance up to 260°C (without sealing)
- Stand-offs and vertical guides in base for locating PCBs and electronic assemblies
- Optional IP 65 (NEMA 4) sealing gasket
- Available in natural finish, or painted white or black.
